Client Hanover Cube
Cost £2m
Services Private Housing

Following the completion of the nearby Queen Elizabeth Hospital, London-based Hanover Cube commissioned BM3 to design a collection of bespoke executive-style homes for the local market, with a focus on meeting the needs and aspirations of local people.

The scheme comprises 14 individually designed four and five bedroom homes. Each was carefully positioned around the site's mature trees, creating a strong connection to the landscape while helping the homes feel distinctive and considered.

A thoughtful mix of contemporary and traditional architectural details gives the development its own character, combining modern living with a sense of familiarity and enduring appeal.
